

PROFESSIONAL SUMMARY

Motivated Computer Science (IoT) student with strong knowledge of programming, embedded systems, and emerging technologies. Skilled in developing IoT-based solutions using sensors, microcontrollers, and software integration. Familiar with Python, Java, and web technologies, with a passion for building innovative and efficient systems. Seeking opportunities to apply technical skills in real-world projects and contribute to organizational growth.

KEY EXPERTISE

web developer, Software Engineering DBMS Data Structures Java C C++ Embedded Systems

EDUCATION

Sagar Group of Institutions - SISTec

2023 - 2027

B.Tech. - Internet of Things - SISTec-E | CGPA: 7.77 / 10

prayas higher secondary school gudbhela, Sehore

2023

12th | mp board | Percentage: 78.60 / 100

bharti vidhya mandir bhadhakhedi, Sehore

2021

10th | mp board | Percentage: 70 / 100

PROJECTS

Smart Driver Safety System

Mentor: prof Priyanka Bhatele | Team Size: 4

Key Skills: backend developer Hardware Integration

Developed a mobile application to improve driver safety.
Implemented speed monitoring using sensors.
Designed an intuitive user interface using Flutter.
Focused on real-time monitoring and alert generation.

Health chatbot

Team Size: 4

Key Skills: frontend developer

Developed an intelligent Health Chatbot that provides basic health-related information and guidance based on user symptoms. Implemented Natural Language Processing (NLP) techniques to understand user queries and generate appropriate responses. Designed a user-friendly interface for interactive communication between users and the chatbot. Enabled symptom-based suggestions and health awareness information while promoting consultation with healthcare professionals for serious conditions. Improved accessibility to health information through automated, real-time responses. Focused on accuracy, usability, and efficient query handling.

CO-CURRICULAR ACTIVITIES

- Worked on IoT and software development projects as part of academic activities. Attended workshops and seminars on Programming, IoT, AI, and Data Analytics. Contributed to team-based software and hardware projects.

EXTRA CURRICULAR ACTIVITIES

- Singing in cultural events.

PERSONAL INTERESTS / HOBBIES

- Singing, playing cricket
